**Item 7.01. Regulation FD Disclosure.**

On November 20, 2019, California Water Service Company (“Cal Water”), a wholly-owned subsidiary of California Water Service Group (“Group”), became aware that its General Rate Case (“GRC”) decision will likely be delayed. The California Public Utilities Commission (the “CPUC”) is required to post a proposed decision thirty days in advance of its December 19, 2019 meeting, and as of November 20, 2019, Cal Water has not received service of a proposed decision. Cal Water is unaware of the reason for, and cannot estimate the length of, the delay at this time. On November 7, 2019, the assigned Administrative Law Judge (“ALJ”) granted Cal Water’s motion for interim relief beginning January 1, 2020. Any difference between interim rates and final rates will be recorded in a memorandum account and, after review, recoverable in a future period.

The information furnished pursuant to Item 7.01 of this Current Report shall not be deemed “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing

*This Current Report on Form 8-K contains forward-looking statements within the meaning established by the Private Securities Litigation Reform Act of 1995 (the “Act”). The forward-looking statements are intended to qualify under provisions of the federal securities laws for “safe harbor” treatment established by the Act. Forward-looking statements are based on currently available information, expectations, estimates, assumptions and projections, and management's judgment about Group, the water utility industry and general economic conditions. Such words as would, expects, intends, plans, believes, estimates, assumes, anticipates, projects, predicts, forecasts or variations of such words or similar expressions are intended to identify forward-looking statements. The forward-looking statements are not guarantees of future performance. They are subject to uncertainty and changes in circumstances. Actual results may vary materially from what is contained in a forward-looking statement. Factors that may cause a result different than expected or anticipated include, but are not limited to: the CPUC deciding not to adopt the ALJ’s proposed decision in the GRC; ability to invest or apply the proceeds from the issuance of common stock in an accretive manner; governmental and regulatory commissions’ decisions, including decisions on proper disposition of property; consequences of eminent domain actions relating to our water systems; changes in regulatory commissions’ policies and procedures; the timeliness of regulatory commissions’ actions concerning rate relief and other actions; increased risk of inverse condemnation losses as a result of climate conditions; inability to renew leases to operate water systems owned by others on beneficial terms; changes in California State Water Resources Control Board water quality requirements; changes in environmental compliance and water quality standards; electric power interruptions, especially as a result of Public Safety Power Shutoff programs for the 2019 fire season as we further develop approaches to manage that risk; housing and customer growth trends; the impact of opposition to rate increases; our ability to recover costs; availability of water supplies; issues with the implementation, maintenance or security of our information technology systems; civil disturbances or terrorist threats or acts; the adequacy of our efforts to mitigate physical and cyber security risks and threats; the ability of our enterprise risk management processes to identify or address risks adequately; labor relations matters as we negotiate with unions; changes in customer water use patterns and the effects of conservation; the impact of weather, climate, natural disasters, and diseases on water quality, water availability, water sales and operating results, and the adequacy of our emergency preparedness; and, other risks and unforeseen events. When considering forward-looking statements, you should keep in mind the cautionary statements included in this paragraph, as well as the annual Form 10-K, Quarterly Form 10-Q, and other reports filed from time-to-time with the Securities and Exchange Commission (SEC).
