Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01. Regulation FD Disclosure.

On July 3, 2020, the California Public Utilities Commission (the "CPUC") issued the proposed decision of the assigned Commissioner, which applies to California Water Service Company, the Registrant's California regulated utility subsidiary ("Cal Water"), and other Class A water companies (collectively with Cal Water, the "Joint Parties"), in the CPUC's low-income ratemaking Rulemaking opened on June 29, 2017. The proposed decision would require the Joint Parties to replace their full decoupling mechanisms with a limited price adjustment mechanism in their next General Rate Case ("GRC") filing.

A proposed decision must be approved by the full CPUC to go into effect. The full CPUC could modify or reject the proposed decision and will first consider the matter, at the earliest, at its meeting on August 6, 2020. Cal Water management disagrees with the conclusions of the proposed decision and believes there is evidence that the proposed decision would increase rates for low-income customers. Management also believes the proposed decision would reinstate the incentive of utilities to maximize water sales, despite clear California state policy goals to improve water use efficiency. Cal Water will communicate this position to the full CPUC in an effort to convince them to adopt a different decision.

The information furnished pursuant to Item 7.01 of this Current Report shall not be deemed "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.

This Current Report on Form 8-K contains forward-looking statements within the meaning established by the Private Securities Litigation Reform Act of 1995 ("Act"). The forward-looking statements are intended to qualify under provisions of the federal securities laws for "safe harbor" treatment established by the Act. Forward-looking statements are based on currently available information, expectations, estimates, assumptions and projections, and management's judgment about the Registrant, the water utility industry and general economic conditions. Such words as would, expects, intends, plans, believes, estimates, assumes, anticipates, projects, predicts, forecasts or variations of such words or similar expressions are intended to identify forward-looking statements. The forward-looking statements are not guarantees of future performance. They are subject to uncertainty and changes in circumstances. Actual results may vary materially from what is contained in a forward-looking statement. Factors that may cause a result different than expected or anticipated include, but are not limited to: the timing of any decision by the CPUC to adopt or not to adopt the assigned Commissioner's proposed decision with respect to Cal Water; governmental and regulatory commissions' decisions, including decisions on proper disposition of property; natural disasters or calamities, public health crises, pandemics, epidemics or outbreaks of a contagious disease, such as the recent outbreak of Coronavirus (or COVID-19), or any escalation or worsening of the foregoing; consequences of eminent domain actions relating to our water systems; changes in regulatory commissions' policies and procedures; the timeliness of regulatory commissions' actions concerning rate relief and other actions; changes in water quality standards; changes in environmental compliance and water quality requirements; electric power interruptions; housing and customer growth trends; the impact of opposition to rate increases; our ability to recover costs; availability of water supplies; issues with the implementation, maintenance or security of our information technology systems; civil disturbances or terrorist threats or acts; the adequacy of our efforts to mitigate physical and cyber security risks and threats; the ability of our enterprise risk management processes to identify or address risks adequately; labor relations matters as we negotiate with unions; changes in customer water use patterns and the effects of conservation; the impact of weather and climate on water quality, water availability, water sales and operating results, and the adequacy of our emergency preparedness; and, other risks and unforeseen events. When considering forward-looking statements, you should keep in mind the cautionary statements included in this paragraph, as well as the annual 10-K, Quarterly 10-Q, and other reports filed from time-to-time with the Securities and Exchange Commission (SEC). The Registrant assumes no obligation to provide public updates of forward-looking statements.
